CHAPTER 1 GENERAL

AIMS

- 1. The aim of the Cadet Program (CP) is to develop in youth the attributes of good citizenship and leadership, promote physical fitness and stimulate the interest of youth in the sea, land and air activities of the Canadian Forces (CF).
- 2. The aim of Gold Star is to provide an Army Cadet with the theoretical knowledge and practical experience required to participate in corps activities and appointments as a team leader.

PROGRAM MISSION AND PARTICIPANT OUTCOMES

- 3. The mission of the CP is to contribute to the development and preparation of youth for the transition from adolescence to adulthood, enabling cadets to meet the challenges of modern society, through a dynamic, community-based program.
- 4. CP participant outcomes are the benefits for the cadet during and / or after their involvement with the program that relate to knowledge, skills, attitudes, values, behaviour, condition and status. The five outcomes of the CP are:
 - a. emotional and physical well-being;
 - b. social competence;
 - c. cognitive competence;
 - d. proactive citizenship; and
 - e. understanding the CF.
- 5. The program mission and participant outcomes are explained in greater detail in CATO 11-03, *Cadet Program Mandate*.

OUTLINE OF TRAINING

- 6. The Star Level Program is a directed program carried out at the corps focused on giving all cadets instruction and opportunities to develop knowledge and skills in a variety of subject areas while introducing them to specialized activities. This program is divided into five levels of training. Normally a cadet will only attempt one level in a given training year.
- 7. Each star level is composed of performance objectives (POs) subdivided into enabling objectives (EOs).

PROGRAM DESIGN

- 8. The Gold Star Program has been designed:
 - a. assuming that the majority of Gold Star cadets are between 15 and 16 years of age;
 - b. assuming that the majority of cadets have successfully completed Silver Star;
 - c. using age-appropriate learning strategies;
 - d. using 30 minutes as a standard period of instruction;

- e. by providing a programming mix consisting of fixed mandatory and flexible complementary training;
- f. including training which is experiential and skill-based, with a lesser focus on theoretical knowledge; and

METHOD OF ACHIEVING OBJECTIVES

- 10. The majority of Gold Star POs are skill-related. Skills are acquired through practical periods of instruction and practice. In order to achieve the POs, a hands-on learning approach is essential. The following guidance may assist in the implementation of training:
 - a. Some theory is required for safety purposes and for introducing new material. However, most material can be taught using practical methods.
 - b. Ensure training sessions are well organized and planned in advance to allow instructors adequate time to prepare for the delivery and conduct of training. This includes reviewing lesson specifications and instructional guides and creating instructional materials as required.
 - c. Schedule training such that the material is presented in a manner that ensures a smooth flow from one activity to the next.
 - d. Take adequate time to allow cadets to reflect upon and be debriefed on experiential training activities, to include future applications of the experience.

TRAINING PREREQUISITES

11. To participate in the Gold Star Program, youths must be members of a corps, as specified in A-CR-CCP-950/PT-001, *Queen's Regulations and Orders for the Canadian Cadet Organizations*, Article 4.01.

USE OF THE QSP

- 12. This QSP shall be used as the primary authority governing the development, implementation, conduct and evaluation of the training and standards to qualify a cadet as Gold Star. This QSP shall also be used by the D Cdts & JCR as the primary reference for validation of Gold Star qualification training.
- 13. The Gold Star Program shall be conducted using this QSP as the training control document in conjunction with A-CR-CCP-704/PF-001, *Royal Canadian Army Cadets, Gold Star Instructional Guides*.
- 14. Any deviation from the requirements detailed in this publication due to training limitations must be approved by D Cdts 3, Senior Staff Officer Youth Programs Development, NDHQ.

CHAPTER 2

TRAINING MANAGEMENT DETAILS

RESPONSIBLE AGENCY AND TRAINING ESTABLISHMENTS

- 1. The Managing Authority for the Army Cadet Star Level Program is the D Cdts & JCR. The conduct of said program is the responsibility of the Regional Cadet Support Units (RCSUs) through authorized Training Establishments (TEs). These TEs include:
 - a. Royal Canadian Army Cadet Corps (RCACC); and
 - b. Technical TEs, such as:
 - (1) expedition centres; and
 - (2) other zone, detachment or regional TEs as authorized by the RCSU Commanding Officer (CO).

TRAINING DETAILS

- 2. In accordance with CATOs 11-04, *Cadet Program Outline* and 40-01, *Army Cadet Program Outline*, the Star Level Program is conducted between 1 September and 30 June of each training year through a combination of training sessions and supported training days / weekends. The Star Level Program is divided into two compulsory components that must be completed by all cadets. These components are:
 - a. **Mandatory Training.** Mandatory training is a scheme of activities that is requisite for corps, and in some instances, specialized TEs, to conduct and for cadets to accomplish in order to complete the Star Level Program; and
 - b. Complementary Training. Complementary training is a scheme of activities that is requisite for corps, and in some instances specialized TEs, to conduct and for cadets to accomplish in order to complete the Star Level Program. These activities complement mandatory activities and form an integral part of the Star Level Program. COs have the discretion to choose activities from a range of possibilities, thus allowing them flexibility to tailor the Star Level Program to match the corps' interests and resources.
- 3. **Gold Star Training Outline.** The distribution of mandatory and complementary training in Gold Star is as follows:
 - a. Mandatory Training:
 - (1) Sixty periods of instruction to be conducted during twenty training sessions (three periods per session);
 - (2) Eighteen periods of instruction to be conducted during two mandatory training days (nine periods per day) for a total of two days;
 - (3) Eighteen periods of instruction to be conducted during a weekend bivouac Field Training Exercise (FTX); and
 - (4) Eighteen periods of instruction to be conducted during a weekend expedition exercise at a regional expedition centre.

- b. Complementary Training:
 - (1) Thirty periods of instruction to be conducted during ten training sessions (three periods per session);
 - (2) Eighteen periods of instruction to be conducted during two complementary training days (nine periods per day) for a total of two days; and
 - (3) One weekend army cadet adventure training activities FTX (C123.01 Participate in Adventure Training) or cold weather FTX (C121.05 Participate in Cold Weather Training).
- 4. **Period Allocation.** Periods are 30 minutes in duration with some periods allocated to be instructed in a field environment during supported weekends. A detailed period allocation is located at Chapter 2, Annex A. Total period allocation by PO is as follows:

QUALIFICATION

11. The Gold Star qualification is awarded to cadets upon completion of the requirements specified in Chapter 3.

RELATED DOCUMENTS

- 12. This QSP is to be used in conjunction with:
 - a. CATOs; and
 - b. A-CR-CCP-704/PF-001.

SPECIAL INSTRUCTIONS

- 13. **Scheduling.** When planning training, Trg Os are to be familiar with the lesson specifications found in Chapter 4. While a sample schedule is located at Chapter 2, Annex B, it does not account for the many variables corps face when developing annual training plans. Some things to consider when developing the annual training schedule are:
 - a. the training environment required for each activity:
 - (1) some activities will require an outdoor environment which requires consideration for seasonal climate; and
 - (2) some activities will require the use of a special facility, such as a gymnasium or sports field;
 - b. the availability of a technical specialist, if required to conduct the activity;
 - c. the logical grouping and sequencing of EOs to take advantage of interrelationships that exist within the instructional material; and
 - d. the scheduling of training during sessions relative to weekend training, eg, identifying EOs that must be delivered just prior to a training day or weekend to prepare the cadets for the event.

14. Training Days / Weekends:

- a. The planning and conduct of training days is the responsibility of the corps. Day training shall be conducted at the corps parade location or, where suitable facilities do not exist at the corps parade location, within the local community.
- b. The conduct of the expedition training weekend is the responsibility of expedition centres. The planning of these activities is to be done in conjunction with the Area Cadet Detachment / RCSU and the applicable Technical TE.
- c. In accordance with CATO 11-04, *Cadet Program Outline*, weekend training shall normally be conducted within 300 km of the corps' parade location.
- d. Where support of mandatory or complementary days / weekends is required, requests shall be forwarded to the appropriate RCSU. Refer to CATO 40-01, *Army Cadet Program Outline*, and regional orders for amplified information on support available from RCSUs.
- e. Training days and weekends shall be structured, unless otherwise specified in the individual Star Level QSP, to include cadets from all levels of the Star Program.

Note 1: M426.02 and 426 PC are to be conducted at an expedition centre during the allocated expedition exercise. The period count for these EOs is an estimate that conforms to the standard eighteen periods allocated to a training weekend. Each expedition centre may adjust this allocation to reflect the choice of activities, facilities and available resources at the expedition centre.

Note 2: Two activities shall be selected from the five listed as M426.02.

CONDUCT OF EXPEDITION EXERCISE

- 1. This annex is intended as amplification to Chapter 4 to provide guidance to the conduct of PO 426 (Perform Expedition Skills).
- 2. Expedition centre training has been designed to provide the Gold Star cadet with the opportunity to further develop expedition skills learned during Silver Star expedition training, in a structured environment under the supervision and instruction of highly-qualified staff. The expedition centre will approach training through an experiential approach, which will allow the cadet to continue the development of skills such as mountain biking and canoeing through direct experience at a personal level. Each cadet will be given the opportunity to examine what they saw, felt and thought during the weekend and consider how it may relate to future experiences.
- 3. Corps will be required to provide each cadet attending an expedition centre with a briefing concerning their participation in the activities at the centre. The information required to be presented is included in EO M426.01 (Prepare for Expedition Training) and the specific expedition centre joining instructions. Corps training officers are advised to schedule this EO a minimum of two weeks prior to the cadet attending the expedition centre, to provide the cadets with enough time to fully prepare for their participation in the activities. During this EO, the cadet will be provided with a Navigation Review Package which shall be completed and brought to the expedition centre. It is advised that corps take the time to review the Navigation Review Package with the cadet and ensure they can complete all skills included. The purpose of this package is to allow the cadet to practice the navigational skills which they will perform while at the expedition centre and to provide expedition centre staff with a means of tailoring a navigation review once the cadet has arrived at the expedition centre.
- 4. Expedition centres, under direction from regional trainers, will select at least two modes of travel. When selecting a mode of travel, expedition centres must ensure that pre-training requirements, as detailed in A-CR-CCP-951/PT-002, *Royal Canadian Army Cadet Adventure Training Safety Standards*, are adhered to. Modes of travel shall be selected from the following list:
 - a. EO M426.02a (Paddle a Canoe) 9 periods,
 - b. EO M426.02b (Ride a Mountain Bike) 9 periods,
 - c. EO M426.02c (Hike Along a Route) 9 periods,
 - d. EO M426.02d (Snowshoe Along a Route) 9 periods, or
 - e. EO M426.02e (Ski Along a Route) 9 periods.
- 5. The following are the training expectations for each dynamic mode of travel:
 - a. **Canoeing.** The cadet shall paddle a tandem canoe, in the bow and the stern, on flatwater for a distance of 15–20 km during an expedition.
 - b. **Mountain Biking.** The cadet shall ride a mountain bike on familiarization / intermediate mountain bike trails for a distance of 40–50 km during an expedition.
 - c. **Hiking.** The cadet shall hike, carrying their personal equipment in an expedition field pack, along a route consisting of a combination of Class 1, 2 and 3 terrain for a distance of 10–15 km during an expedition.
 - d. **Snowshoeing.** The cadet shall snowshoe, carrying their personal equipment in an expedition field pack, along a route for a distance of 8–10 km during an expedition.
 - e. **Skiing.** The cadet shall cross-country ski, carrying their personal equipment in an expedition field pack, along a route consisting of groomed / non-groomed trails for a distance of 6–10 km during an expedition.

- 6. A schedule has been included to provide the expedition centre with a sample format to follow for the weekend. The period count, 9 per mode of travel, is an estimate that conforms to the standard eighteen periods allocated to a training weekend. The expedition centre may choose to adjust this allocation to reflect the choice of activities, facilities and available resources. When developing a training schedule, expedition centres may choose to incorporate additional Army Cadet Adventure Training Activities (ACATA), as outlined in A-CR-CCP-951/PT-002, Royal Canadian Army Cadet Adventure Training Safety Standards, as long as this does not impede the cadets' abilities to meet mandatory training requirements.
- 7. Expedition centres will be required to schedule appropriate time on the Friday evening to prepare the cadet for the expedition. Expedition centre staff may use this time to address the following:
 - a. campsite set-up,
 - b. personal equipment issue,
 - c. navigation review,
 - d. pack an expedition pack review,
 - e. expedition daily routine review,
 - f. expedition briefing,
 - g. assessment overview, and / or
 - h. cold weather camping introduction, if applicable.
- 8. Based on Fortress data, cadets will be placed into expedition teams of no more than six upon arrival on Friday evening. All training will be conducted in small teams. Each expedition team will be assigned an expedition centre Team Instructor (TI). Depending on expedition staff availability, an experienced TI may be assigned to a maximum of two expedition teams. These team sizes take into account instructor / cadet training ratios, but not the requisite instructor qualifications for the adventure training activities being conducted.
- 9. A TI will have two functions at the expedition centre. Prior to the commencement of the expedition, at the campsite on Saturday evening and upon completion of the expedition, the TI will be responsible for all details pertaining to the preparation, support, administration, assessment and supervision of their respective team(s). During the actual conduct of the expedition the TI will not travel directly with their expedition team(s) but will monitor the progress of the team(s) as they travel along the expedition route and provide instruction, supervision and assessment of the cadets. TIs will remain within sight or sound of teams as they travel along the expedition route.
- 10. In order to provide the cadet with the maximum amount of time to develop their expedition skills it is recommended that all skill instruction be conducted along the expedition route. Ideally, the modes of travel selected for the Gold Star expedition should allow for a continuation of learning from the Silver Star expedition. This will allow cadets to build on previously learned skills with the addition of some advanced techniques.
- 11. When following an experiential education approach, being aware of teachable moments is very important. A teachable moment is a situation that naturally arises during the course of the day and provides opportunity for discussion. These moments will reinforce both expedition and corps program material and should be taken advantage of throughout the expedition. Expedition centre staff should take the time to explain and emphasize program material as opportunity arises. Some of these teachable moments could include:
 - a. Leave No Trace,
 - b. foot care,

- c. basic astronomy,
- d. wildlife,
- e. predicting weather,
- f. campsite routine,
- g. use of expedition equipment,
- h. equipment repairs,
- i. navigation without a map or compass, and
- j. edible and medicinal plants, etc.

Note 1: Tls must monitor their teams as they complete morning routine. They should use this time to provide feedback / suggestions on packing, establishing a cooking area, collecting garbage, cleaning-up, tearing down tents, packing equipment, etc

Note 2: Timings for each mode of travel during the expedition will vary depending on the type selected. While there may be some instances where there is a requirement for training, the focus should be on having the cadets complete the training during the conduct of the expedition along the expedition route.

Note 3: The completion of all preparatory navigation work by each team member prior to the expedition team leaving the start point should spread out the teams along the expedition route. If required, expedition staff can stagger the start of teams to ensure that teams are not simply following each other along the expedition route.

Note 4: During the expedition each cadet will be required to lead / navigate one leg of the route. All cadets will be assigned their leg prior to the commencement of the expedition. Cadets will be required to complete all navigation work prior to their expedition team leaving the start point. TI's will check all cadets' work and ensure that they have the correct answers.

A-CR-CCP-704/PG-001 Chapter 2, Annex A, Appendix 1

Note 5: Meals will occur at pre-determined locations. The Log O will deliver the rations and equipment required for meals to the pre-determined location. Expedition teams will be required to prepare their own meals and complete all associated clean-up.

Note 6: Other ACATA can be incorporated into the expedition route. For example: during the hiking route cadets may be given the opportunity to move through a series of caves or abseil down a rock face; or incorporating a trail hike in with canoeing and mountain biking to move the cadets from one location to the next. Flexibility is provided as long as the primary objectives of the two selected modes of travel are met

Note 7: Expedition centres may choose to organize their expedition route so that cadets participate in a new mode of travel on each day of the expedition.

Note 8: Evening activities shall be provided and could be comprised of: navigation review, team-building games, introduction to next day's activities, etc.

Note 9: The expedition end time will differ for each expedition centre.

1. The purpose of this chapter is to outline the specific evaluation requirements for achievement of Gold Star qualification.

LEARNER EVALUATION

- 2. A-P9-050-000/PT-Z01, *Manual of Individual Training and Education, Volume 1* defines learner evaluation as, "the assessment of progress made by participants during an instructional programme (formative evaluation) and of their achievement at the end of the programme (summative evaluation)."
- 3. Formative evaluation, or assessment **for** learning, takes place during a phase of instruction and helps cadets and instructors recognize progress or lapses in learning. Through formative evaluation, the instructor can: identify when corrective or remedial action is required, plan the next steps in instruction, provide cadets with feedback so they can improve, and reinforce learning to aid the cadet in retaining information. Formative evaluation may also include opportunities for cadets to practice using Performance Checks (PCs) employed in summative evaluation. Details for assessment for learning are outlined within the applicable lesson specifications located in Chapter 4.
- 4. Formative evaluation may also incorporate the performance checks (PCs) employed in summative evaluation, allowing the cadet opportunities for practice prior to the PC. Details for assessment for learning are outlined within the applicable lesson specifications found in Chapter 4.
- 5. Summative evaluation, or assessment **of** learning, takes place to determine whether learners have achieved POs, or critical EOs (those deemed prerequisites to further individual training and education) and are used at the end of a phase of instruction. Details for assessment of learning are detailed within this chapter.

CADET EVALUATION DESIGN AND DEVELOPMENT

- 6. Cadet evaluation is designed and developed incorporating contemporary professional practices from the fields of education and youth development as well as considering best practices in use within the Canadian Cadet Organizations (CCO).
- 7. Cadet evaluation is designed and developed so that all cadets are capable of achieving all POs and associated EOs. To motivate cadets to learn, cadet evaluation builds on success and confidence rather than demotivating cadets with failure and defeat.
- 8. The following fundamental assessment principles shall guide the conduct of Gold Star assessment activities:
 - a. in advance of training, the instructor shall inform the cadet of POs and EOs associated with the qualification;
 - in advance of training, the instructor shall inform the cadet of the assessment plan for the qualification and provide the cadet with an opportunity to review the applicable forms used in assessment;
 - c. assessment information shall be shared between the instructor and the cadet and used to revise and guide instruction and learning;
 - d. the instructor shall provide feedback that is descriptive, constructive, frequent, and timely; helping the cadet to identify strengths and address areas requiring improvement;

- e. the cadet shall be actively, consistently and effectively involved in assessment; including learning to manage their own learning through the skills of self-assessment; and
- f. the cadet shall be encouraged to actively, consistently and effectively communicate with others about their learning progress.

CP DEVELOPMENTAL PERIODS (DPs)

- 9. The CP is designed across adolescent DPs adapted to suit the CP target population. Outlined in each DP are specific philosophies and approaches to learning and assessment that influence design, development and conduct of cadet training and assessment.
- 10. A DP is a time frame, during a cadet's progression through the CP, in which the cadet participates in training and is provided opportunities to develop desired knowledge, skills and attitudes that support the aim of the CP and contribute to the achievement of the CP outcomes.
- 11. Progressive training levels, and associated learning objectives, distinguish each DP; ensuring training is relevant, achievable and age-appropriate for the cadet population. DPs and associated training levels are designed to be completed in a sequential manner and are also fluid, which allows a cadet to progress to the next training level or DP while still working on completion of learning objectives from the previous level or DP.
- 12. The design and development of cadet training and evaluation is based on the basic overview of the DP characteristics located at Chapter 3, Annex A.

CADET ASSESSMENT OF LEARNING PLAN

- 13. The Assessment of Learning Plan located at Chapter 3, Annex B, provides an overall strategy for using assessment activities to determine if the cadet meets the requirements for Gold Star qualification. The Assessment of Learning Plan will:
 - a. provide an outline of each assessment of learning activity including its purpose, when it will occur, and details the assessment instrument(s) used to support cadet evaluation;
 - b. identify the learning target(s) associated with the PO and / or EO being assessed, to include:
 - (1) **Knowledge Mastery.** The facts, concepts and theory a cadet needs to know;
 - (2) **Reasoning Proficiency.** A cadet uses what they know to solve a problem, make a decision, make a plan, think critically, set goals, or self-assess;
 - (3) **Skills.** Performance demonstration; where the cadet demonstrates their ability to perform a skill. To be assessed, these performances must be demonstrated by the cadet and observed by an assessor;
 - (4) **Ability to Create Products.** A cadet uses their knowledge, reasoning and skills to create a concrete product; and / or
 - (5) **Attitudinal / Dispositional Changes.** A cadet's attitude about learning, safety, conduct, etc. Targets in this realm reflect attitude and feeling. They represent important affective goals we hold for a cadet as a by-product of their CP experience, and as such are not generally assessed for the purpose of attaining a qualification.
 - c. identify the assessment method(s) that best matches PO and / or EO learning targets, to include:
 - (1) **Selected Response.** A cadet selects the correct or best response from a list provided. Formats include multiple choice, true / false, matching, short answer, and fill-in-the-blank questions. Although short answer and fill-in-the-blank questions do require cadets to

- generate an answer, they call for a very brief answer that is counted as right or wrong, so these have been included in the selected response category;
- (2) **Extended Written Response.** A cadet is required to construct a written answer in response to a question or task rather than select one from a list. An extended written response is one that is at least several sentences in length;
- (3) **Performance Assessment.** This assessment method is based on observation and judgment; performance or product is observed and a determination is made as to its quality; and / or
- (4) **Personal Communication.** Gathering information about a cadet through personal communication, learning is assessed through interpersonal interaction with the cadet.

ASSESSMENT INSTRUMENTS

14. Specific assessment instruments have been designed to support each assessment activity within the assessment of learning plan. These are meant to standardize assessment activities and cadet evaluation for all cadets attempting the qualification. Assessment instruments are located at Chapter 3, Annex B, Appendices 1–7.

ADDITIONAL ASSESSMENT OF LEARNING ACTIVITIES

15. No additional cadet evaluations, eg, theory tests or performance checks, are to be used to determine Gold Star qualification eligibility. Therefore, these national standards are not to be supplemented with additional regional and / or local standards.

GOLD STAR QUALIFICATION STANDARD

- 16. The minimum standard for Gold Star qualification is:
 - a. 60 percent overall attendance in all scheduled mandatory and complementary training as calculated by the corps; and
 - b. successful completion of each PO as outlined in the Gold Star Program Qualification Record located at Chapter 3, Annex C.

RECOGNITION OF ENHANCED PROFICIENCY ACHIEVEMENT

- 17. Certain POs within the Assessment of Learning Plan allow for recognition of an enhanced proficiency level of achievement. The assessment instructions for the applicable PCs outline how proficiency levels are achieved and recorded on the Qualification Record. This information highlights a cadet's strength(s) within the achievement of the qualification. The following definitions differentiate baseline proficiency and enhanced proficiency levels of achievement:
 - a. **Baseline Proficiency.** A cadet achieves baseline proficiency by demonstrating the performance standard outlined in the applicable PO; and
 - b. **Enhanced Proficiency.** A cadet achieves enhanced proficiency by exceeding the performance standard outlined in the applicable PO.

CADETS NOT MEETING THE QUALIFICATION STANDARD

- 18. A cadet who does not meet the qualification standard for any PO shall be given a reasonable opportunity to achieve the standard. Unless otherwise specified in the assessment of learning plan and associated assessment instruments, there is no limit to the number of additional opportunities that may be afforded to the cadet, provided it is within the resources of the corps. If, by the end of the training year, a cadet who is Silver Star qualified has not successfully attained any PO, the corps CO may waive the minimum qualification standard. When waiving any PO requirement, the corps CO shall consider:
 - a. the legitimacy of the cadet's reason for failing to attain the PO;
 - b. the cadet's mandatory and complementary training attendance; and
 - c. the cadet's overall behaviour and performance.
- 19. Any cadet for whom a waiver has been issued will not be granted the Gold Star qualification. However, that cadet will progress to Master Cadet in the fifth year of their corps membership. If a CO does not grant a cadet a waiver, that cadet may be held back to repeat Gold Star.
- 20. Cadets who have been granted a waiver of the qualification standard of Gold Star and have progressed to Master Cadet in the fifth year of their corps membership are expected to achieve the missing Gold Star PO requirements. To facilitate this, cadets may concurrently receive credit for activities completed in Gold Star as part of also achieving Master Cadet.
- 21. Notwithstanding the general direction in Paragraphs 18 to 20, the following limitations shall be adhered to:
 - a. only cadets who have achieved the Silver Star qualification may be granted a waiver; and
 - b. given the resource and scheduling implications of cadets attending expedition centres in Master Cadet without the prerequisite skills training provided in Gold Star, cadets may only be waived PO 426 (Perform Expedition Skills) by a designated representative of the RCSU. The corps CO shall make a request to the designated representative of the RCSU through the chain of command. When considering a cadet for waiver of PO 426, RCSU staff shall consider previously acquired equivalency training, including that received as part of the CSTC Program and that attained outside the CP. Where a cadet lacks suitable equivalency training the RCSU may waive the PO while requiring that the cadet complete PO 426 in their Master Cadet year, prior to being eligible to participate in PO 526.

RECORDING AND REPORTING CADET ACHIEVEMENT

22. The progress of each cadet shall be recorded on the Gold Star Program Qualification Record, located at Chapter 3, Annex C, which is also used to determine successful completion of Gold Star qualification. Commanding Officers are responsible for ensuring the results are recorded on each cadet's DND 2399, *Cadet Personnel Record*.

GOLD STAR CERTIFICATE OF QUALIFICATION

23. The CF 558, *Cadet Certificate of Qualification* (NSN 7530-21-870-7685), shall be awarded to each cadet upon successful completion of the Gold Star qualification.

MONITORING CADET PROGRESS

24. Cadets must meet the standard of behaviour and conduct expected from all cadets. The course officer during cadet interviews and personal counselling should adopt a proactive approach towards difficulties.

- 25. The course officer is encouraged to meet formally and informally with cadets throughout the training year to discuss the cadet's progress towards Gold Star qualification (assessment for learning) and to provide feedback on overall performance. At a minimum, it is expected that the course officer will meet with each cadet at the end of the training year to review the completed Chapter 3, Annex C, *Gold Star Program Qualification Record*. Guidelines for conducting cadet interviews are located at Chapter 3, Annex D.
- 26. Frequent absences from mandatory and complementary training that could result in the cadet not meeting the minimum standard for Gold Star qualification must be addressed in accordance with CATO 15-22, *Conduct and Discipline Cadets*.

TRAINING COUNSELLING SESSION

27. A training counselling session is used when a cadet is having difficulties progressing toward Gold Star qualification and an intervention is required to set goals for corrective action and / or remedial instruction. These counselling sessions focus on training related issues. The Trg O is responsible for conducting training counselling sessions. Guidelines for conducting training counselling sessions are located in Chapter 3, Annex E and the Training Counselling Session Form is located at Chapter 3, Annex E, Appendix 1.

ASSESSMENT INSTRUCTIONS

PREPARATION

PRE-ASSESSMENT INSTRUCTIONS

Review the assessment plan, assessment instructions, 403 PC Assessment Rubrics, Assessment Checklists and become familiar with the material prior to conducting the assessment.

This PC consists of two parts, a leadership assignment and a leadership appointment. There is no time allotted for the PC as it is to be administered whenever and wherever Gold Star cadets lead cadets through a leadership assignment or appointment.

Leadership Assignment. The cadet shall be given a minimum of one practice leadership assignment which will be assessed using the 403 PC Assessment Rubric – Leadership Assignment. The cadet will reflect and self-assess after the practice leadership assignment using the same rubric. The formal leadership assignment will be given and assessed using the same rubric.

Leadership Appointment. The formal leadership appointment will be given and assessed using the 403 PC Assessment Rubric – Leadership Appointment. The cadet will reflect and self-assess after the leadership appointment using the same rubric. The leadership appointment assessment shall be recorded on the cadet's qualification record.

Photocopy the 403 PC Assessment Rubrics.

Photocopy the 403 PC Assessment Checklists.

PRE-ASSESSMENT ASSIGNMENT

The cadet shall review the 403 PC Assessment Rubrics and Checklists and become familiar with the assessment criteria.

ASSESSMENT METHOD

Performance assessment and personal communication were chosen as it allows the assessor to observe the cadet's ability to perform the required skill(s) and make a judgment on the quality of performance.

CONDUCT OF ASSESSMENT

PURPOSE

The purpose of this PC is to assess the cadet's ability to lead cadets through a leadership assignment and appointment.

RESOURCES

- Two 403 PC Assessment Checklists.
- Two 403 PC Assessment Rubrics, and
- As per the leadership assignment or appointment.

ASSESSMENT ACTIVITY LAYOUT

As per the leadership assignment or appointment.

ASSESSMENT ACTIVITY INSTRUCTIONS – LEADERSHIP ASSIGNMENT

- 1. Communicate to the cadet their leadership assignment either verbally or in writing.
- 2. Ensure the cadet understands the leadership assignment.
- 3. Have the cadet conduct the leadership assignment.
- 4. Using the Assessment Rubrics as a guide, make notes of observations and record results on the corresponding Assessment Checklist.

The assessment of leadership abilities is subjective; however, the assessor's responsibility is to be as positive as possible.

5. Have the cadet assess their performance using the Assessment Rubric. Ensure the cadet understands their self-assessment will not be recorded on their qualification record.

ASSESSMENT ACTIVITY INSTRUCTIONS - LEADERSHIP APPOINTMENT

- 1. Meet with the cadet to assign their leadership appointment. The Training Officer shall have developed a list of appointments, based on the examples suggested in M403.06 (Act as a Team Leader During a Leadership Appointment).
- 2. Ensure the cadet understands the leadership appointment.
- 3. Have the cadet carry out the leadership appointment.
- 4. Using the Assessment Rubrics as a guide, evaluate the cadet's leadership ability by observation throughout the duration of the leadership appointment, make notes of observations and record results on the corresponding Assessment Checklist.

The assessment of leadership abilities is subjective; however, the assessor's responsibility is to be as positive as possible.

5. Have the cadet self-assess their performance using the Assessment Rubric. Ensure the cadet understands their self-assessment will not be recorded on their qualification record.

POST ASSESSMENT INSTRUCTIONS

RECORDING ASSESSMENT RESULTS

- 1. The overall performance assessment for PO 403 is a combined result of the leadership assignment and appointment assessments. Indicate the overall performance assessment on the Assessment Checklist as:
 - a. **Incomplete**. The cadet has not achieved the performance standard by receiving an "incomplete" on more than four (between both assessments) of the creteria;
 - b. **Completed With Difficulty**. The cadet had achieved the performance standard by receiving an "incomplete" on less than five (between both assessments) of the criteria:
 - c. **Completed Without Difficulty**. The cadet has achieved the performance standard by receiving a minimum of "completed with difficulty" on all criteria and "completed without difficulty" on nine (between both assessments) or more of the criteria; or
 - d. **Exceeded Standard**. The cadet has achieved the performance standard by receiving a minimum of "completed without difficulty" on all criteria and "exceeded standard" on 12 (between both assessments) or more of the criteria.
- Record notes and observations in the assessor's feedback section of the Assessment Checklist.
- 3. Sign and date the Assessment Checklist.
- 4. Ensure a copy of the Assessment Checklists is attached to the cadet's training file.
- 5. The overall result will be recorded on the Gold Star Qualification Record located at Chapter 3, Annex C.

PROVIDING ASSESSMENT FEEDBACK

Discuss the cadet's self-assessment on their performance.

Following each assessment, ask the cadet what they felt went right during the leadership assessment, what did not go well and ask the cadet how they would improve their performance if the leadership assignment or appointment was given to them again.

Discuss the performance results of each section of the Assessment Rubric with the cadet.

Discuss the overall performance results with the cadet and provide the cadet with a copy of the completed Assessment Checklists.

Because of the duration and overall nature of the leadership appointment, feedback needs to be provided on an ongoing basis. Additional time will also need to be scheduled upon the conclusion of the appointment for final feedback.

- **Exceeded Standard.** The skill was completed without any difficulty / assistance and required no use of the parade sequence aide-mémoire card.

Make notes of observations for the purpose of providing descriptive post-assessment feedback.

- 1. Assess the cadet's performance for each skill and record the results on the Assessment Checklist.
- 2. Cadets may be given unlimited re-tests within the resources of the cadet corps to meet the standard for each skill. Where time permits, cadets may re-test to improve their results.

POST ASSESSMENT INSTRUCTIONS

RECORDING ASSESSMENT RESULTS

- Indicate the overall performance assessment on the Assessment Checklist as:
 - a. **Incomplete.** The cadet has not achieved the performance standard by not completing at least one of the required areas;

 - (3) Hike,

- (4) Snowshoe, and / or
- (5) Ski.
- 3. At the end of each training day:
 - a. have each cadet complete a Peer Assessment Rubric (Lead a Leg of an Expedition) on the cadets who led a leg of the expedition;
 - b. have each cadet who led a leg of the expedition complete the Self-Assessment Questionnaire (Lead a Leg of an Expedition);
 - c. conduct a team debriefing where, in a positive manner, cadets will provide the team leaders of the day one positive occurrence and one suggestion for improvement;
 - d. have each cadet who led a leg of the expedition complete an entry in their expedition journal, critically reflecting on one positive occurrence during their time as team leader and one area in which they would like to improve when next placed in a leadership role; and
 - e. review the completed Peer Assessment Rubrics (Lead a Leg of an Expedition) and conduct an end of day interview with each cadet who led a leg of the expedition and record the results on the corresponding Assessment Checklist (Lead a Leg of an Expedition).
- 4. Distribute the completed Peer Assessment Rubrics (Lead a Leg of an Expedition) to each cadet following the completion of the expedition, prior to the cadet's departure.

This PC is ongoing throughout the expedition training weekend. As it deals with progressive skill development, the practice of limiting the number of attempts a cadet has to complete the PC does not apply. Attempts, however, are limited based on available time during the expedition training weekend.

In the case of inclement weather limiting some aspects of assessment, a Regional Cadet Support Unit (RCSU) may grant a baseline proficiency based on incomplete observations. However, such circumstances must be recorded in the overall feedback section.

POST ASSESSMENT INSTRUCTIONS

RECORDING ASSESSMENT RESULTS

- 1. On the Gold Star Expedition Performance Record, for each cadet:
 - a. complete the Expedition Travel Log indicating the modes of travel, distances travelled, duration of activity, class / level of activity and cadet level achieved during the expedition;
 - b. record the overall skill assessment results for each skill on the Overall Skill Assessment Summary Chart;

- c. indicate the overall performance assessment as:
 - (1) **Incomplete.** The cadet has not achieved the performance standard by receiving an "Incomplete" on one or more of the skills;
 - (2) **Completed With Difficulty.** The cadet has achieved the performance standard by receiving a minimum of "Completed With Difficulty" on all skills;
 - (3) **Completed Without Difficulty.** The cadet has achieved the performance standard by receiving a minimum of "Completed Without Difficulty on all skills; or
 - (4) **Exceeded Standard.** The cadet has achieved the performance standard by receiving a minimum of "Exceeded Standard" on all skills.
- d. provide overall feedback comments, as required.

It is the assessor's responsibility to record feedback to substantiate the results.

A cadet who does not meet the performance standard shall be given additional opportunities to succeed. There is no limit to the number of additional opportunities that may be afforded to the cadet, provided it is within the time and resource limitations of the expedition centre. Should a cadet's lack of progress be significant enough after multiple opportunities, the processes found in Chapter 3, Annex E, Training Counselling Session, shall be followed.

- 2. Sign and date the Gold Star Expedition Performance Record.
- 3. Forward the Gold Star Expedition Performance Record to the cadet's corps.
- 4. The overall result will be recorded on the Gold Star Qualification Record located at Chapter 3, Annex C.

PROVIDING ASSESSMENT FEEDBACK

As this PC is ongoing, feedback should be provided to the cadets on a regular basis to inform them of their progress. This is accomplished through direct / immediate feedback during the expedition, group debriefings at the end of the training day and end of expedition training one-on-one interviews.

Discuss the overall performance results with the cadet prior to their departure from the expedition centre.

Analytical Performance Assessment:

e team	The team leader did not maintain a pace that allowed all team members to keep up and had to be prompted by the TI or team members to slow down / wait.	The team leader ensured that the team travelled together and usually maintained a pace that all could keep up with.	The team leader ensured the pace was adequate for all members, by placing slower members in the front and middle of the team.
te positive dynamics.	The team leader rarely checked on the well-being of team members.	At times the team leader checked on the well- being of team members.	The well-being of team members was assessed by the team leader throughout the leg.
Promote dy	When conflict arose, the team leader was unsure of how to deal with it, requiring the assistance of other team members / Tl.	When conflict arose, the team leader was able to deal with the issues, coming up with solutions with the assistance of team members.	The team leader dealt with conflict quickly and efficiently, listening to the issues of all members before making a decision.
to team s.	At times, some team members, but not all, were asked for their ideas / suggestions.	On most occasions, the team leader attempted to include team members in discussions about team activities by encouraging team members to make suggestions.	The team leader included all team members in discussions about team activities, by providing all team members the chance to make suggestions and listening to the suggestions of others.
Communicate member	The team leader was not consistent in informing team members about what was happening, which resulted in confusion and, at times, conflict between team members.	The team leader communicated instructions to team members throughout the leg, ensuring that all members were aware of what was happening.	At no time were team members unsure about what was happening.
Сош	At times, the team leader shouted / made inappropriate gestures / used a tone that team members felt was inappropriate.	In most situations the team leader communicated instructions in a respectable tone and without shouting.	All instructions to team members were communicated in a respectable tone and without shouting.

	Completed With Difficulty	Completed Without Difficulty	Exceeded Standard
nembers.	The team leader did not place themselves among the team to allow for effective supervision, moving primarily at the front of the team.	The team leader was aware of their position among the team, moving between the front and the back of the group to ensure supervision of all members.	The team leader assigned each team member a position, and then moved between the front and the back to ensure adequate supervision at all times.
se team r	At times the TI or team members had to intervene to stop the team from making unsafe decisions.	The team leader usually identified the technical sections of the leg, stopping to brief the team as required to ensure their safety.	Team members were briefed on technical sections prior to the start of the leg, with additional measures being put into place at each technical section.
Supervis	The team leader provided only minimal support and encouragement to team members during the leg.	The team leader was supportive of team members, taking breaks and encouraging members who were tired / having difficulties.	The team leader continuously offered support and encouragement to team members, assessing team member's morale and the requirement for breaks.

ANNEX D CADET INTERVIEW GUIDELINES

PREPARATION FOR A PROGRESS INTERVIEW

PRE-INTERVIEW INSTRUCTIONS

Review the interview guidelines and the Cadet Interview Form located at Chapter 3, Annex D, Appendix 1 and become familiar with the material prior to conducting the interview.

Where discussion is being directed towards specific topic areas, ensure that any required support materials are prepared in advance and distributed to the cadet to review. This could include: training schedules, the Assessment of Learning Plan (Chapter 3, Annex B), PC assessment instruments, etc.

Schedule interviews to allow approximately 10-15 minutes per cadet.

PRE-INTERVIEW ASSIGNMENT

Have the cadets review any support materials so they are able to attend the interview prepared to discuss the specific topic areas, as well as their expectations and personal goals.

CONDUCT OF A PROGRESS INTERVIEW

PURPOSE

The purpose of conducting a progress interview is to discuss the cadet's learning progress towards their qualification (assessment for learning) and to provide feedback on overall performance.

RESOURCES

- Note paper,
- Pen / pencil, and
- Cadet Interview Form.

INTERVIEW LAYOUT

Set up the interview location so that both the interviewer and cadet will be comfortable.

INTERVIEW INSTRUCTIONS

Tips for a successful interview:

Ask questions that will provoke thought; in other words avoid questions with a yes or no answer.

Manage time by ensuring the cadet stays on topic.

Listen and respond in a way that indicates you have heard and understood the cadet. This can be done by paraphrasing their ideas.

Give the cadet time to respond to your questions.

- 1. Have the cadet enter the area of the interview.
- 2. Ask the cadet how they feel they are progressing in the Star Level.

- 3. Give the cadet feedback on their progress and their overall performance highlighting any gaps that may exist between the cadet's self-assessment and the officer's observations.
- 4. Help the cadet make an action plan that takes into consideration the cadet's goals and the requirements of the qualification. Action plans should be realistic and achievable and written using positive language.

The action plan is a negotiated set of steps that the cadet commits to taking to reach their goals. The officer should not dictate steps or goals, but should guide the cadet towards a mutually agreed upon plan of action that meets both the needs of the cadet and the needs of the CP. The action plan must be achievable for the cadet, provide the cadet with guidelines on the action they must take to be successful and be written using positive language.

- 5. Have the cadet sign the Cadet Interview Form, Section 2.
- 6. Sign the Cadet Interview Form, Section 2.

POST-INTERVIEW INSTRUCTIONS

Meet with the cadet throughout the training year to discuss their progress towards achieving the qualification and to revise their action plan.

PREPARATION FOR FINAL INTERVIEW

PRE-INTERVIEW INSTRUCTIONS

Review the interview guidelines and Cadet Interview Form and become familiar with the material prior to conducting the interview.

Review the cadet's completed Qualification Record and related assessment instruments as well as the completed Section 1 and 2 of any Cadet Interview Forms.

Schedule interviews to allow approximately 10-15 minutes per cadet.

PRE-INTERVIEW ASSIGNMENT

Have the cadets review the personal goals they established at the beginning of the training year, any action plans, and come to the interview prepared to discuss their success in reaching those goals. Have the cadet think about their personal goals for the summer and following training year.

CONDUCT OF FINAL INTERVIEW

PURPOSE

The purpose of the final interview is to discuss the completed Qualification Record, the cadet's goals that were discussed during the initial interview, and new goals for the summer and following training year.

RESOURCES

- Cadet Interview Form, and
- Pen / pencil.

INTERVIEW LAYOUT

Set up the interview location so that both the cadet and the interviewer will be comfortable.

INTERVIEW INSTRUCTIONS

Tips for a successful interview:

Ask questions that will provoke thought; in other words avoid questions with a yes or no answer.

Manage time by ensuring the cadet stays on topic.

Listen and respond in a way that indicates you have heard and understood the cadet. This can be done by paraphrasing their ideas.

Give the cadet time to respond to your questions.

- 1. Ask the cadet questions in Section 3 of the Cadet Interview Form.
- 2. Provide the cadet with a copy of their completed Qualification Record and discuss their learning progress towards course objectives. Where a cadet has been granted a waiver explain to the cadet what this means and what they will be required to do in the following year to meet the current qualification requirements.
- 3. Ask the cadet the remaining questions on the form.
- 4. Have the cadet sign the final interview form.
- 5. Sign the final interview form.

POST-INTERVIEW INSTRUCTIONS

Ensure the CF 558, Cadet Certificate of Qualification, (NSN 7530-21-870-7685), is awarded to cadets who successfully complete the qualification. This should be done in a manner that highlights the cadet's achievement, eg, a graduation parade or other formal event.

PERFORMANCE OBJECTIVES AND TRAINING PLAN SECTION 1

PERFORMANCE OBJECTIVES (POs) AND TRAINING PLAN

PURPOSE

1. The purpose of this chapter is to outline the specific POs associated with the Gold Star qualification.

PERFORMANCE OBJECTIVES

- 2. POs are a description of the cadet's ability after training is complete. They include a description, in performance terms, of what the individual must do, the conditions under which the performance must be completed, and the standard to which the performance must conform. These three elements are respectively defined as:
 - a. a performance statement;
 - b. a conditions statement; and
 - c. a standard.
- 3. This chapter also details the training plan that is designed to assist cadets to achieve the required POs using EOs and Lesson Specifications (LS) that are the key reference used for development of A-CR-CCP-704/PF-001, *Gold Star Instructional Guides*.

ENABLING OBJECTIVES

- 4. EOs are a description of the cadet's ability after each unit of learning is complete and constitute a major step towards achieving the PO. EOs may correspond to the major components identified in the first round of deconstructing POs or they may result from grouping several related components. They are composed of three essential parts:
 - a. a performance statement;
 - b. a conditions statement; and
 - c. a standard.

LESSON SPECIFICATIONS

- 5. LSs describe the instructional strategy to be applied to each EO, and include:
 - a. supporting teaching points;
 - b. references:
 - c. learning activities (methods, media and environment);
 - d. estimated timings;
 - e. assessment directions; and
 - f. any remarks that further clarify the design intent.

ASSESSMENT FOR LEARNING

6. Formative evaluation, or assessment for learning, takes place during a phase of instruction and helps cadets and instructors recognize progress or lapses in learning. These assessments can also provide cadets with opportunities to practice PCs. This helps to diagnose cadet needs, eg, corrective action or remedial instruction, plan the next steps in instruction and provide cadets with feedback they can use to improve. It also reinforces learning so that it can be retained longer. Details for Gold Star assessment for learning are outlined within the applicable lesson specifications located at Chapter 4.

CASE STUDY Cadets are given a written problem, situation or scenario, to which they respond either individually or as a group in order to achieve a performance objective. The problem situation or scenario should match the experience level of the cadets and they should be given enough time either before or during the instructional period to analyze it. Responses to the case should be recorded under four headings: Facts, Assumptions, Problems and Solutions	Learning principles, attitudes and concepts.	 Effective application of teaching principles instead of "preaching". Cadets can help each other learn. High energy and perfect demonstrations. Can be easily related to a real life situation in the past and for future applications. 	Must be well organized and facilitated in order to ensure learning takes place.
PERFORMANCE Cadets observe the instructor performing the task in a demonstration, and rehearse it under the supervision of the instructor. A good example of this is drill instruction, where cadets are shown a movement and given the opportunity to practice and perform it. Demonstration Method A method of instruction where the instructor, by actually performing an operation or doing a job, shows the cadet what to do, how to do it and through explanations brings out why, where and when it is done.	 Demonstration Method To teach manipulative hands-on operations or procedures. To teach troubleshooting. To illustrate principles. To teach operation or functioning of equipment. To teach teamwork. To set standards of workmanship. To teach safety procedures. 	Demonstration Method 1. Minimizes damage and waste. 2. Saves time. 3. Can be presented to large groups.	Demonstration Method 1. Requires careful preparation and rehearsal. 2. Requires special classroom arrangements. 3. Requires equipment and aids.

cycle may be considered and applied to all activities within the Cadet Program, regardless of methodology chosen. Stage 1: Concrete Experience: Cadets have an experience and take time to identify and define what the experience is. Sample activities: direct observations, simulations, field trips, and reading. Stage 2: Reflective Observation: Cadets need to reflect on and examine what they saw, felt and thought while they were having the experience. Sample activities: discussion, journals / logs, and graphs. Stage 3: Abstract Conceptualization: Cadets work to understand and make connections from the experience to new or different situations. Sample activities: interview, discussion,					5.

Stage 4: Active Experimentation: Cadets look ahead to and plan the application of skills and knowledge acquired to future experience. Sample activities include: simulation, fieldwork. Note: The cycle is ongoing as each learning experience builds on another.			
FIELD TRIP Theoretical knowledge is reinforced through participation in an activity in a real-life setting. Prior planning helps to ensure all pre-training and safety standards are met. Field trip activities are planned and carried out to achieve clear instructional objectives that are understood by the cadets. Examples can include trips to areas of local interest, flying / gliding, hiking or sailing.	 Awareness of historical situations. Can be used in conjunction with many other instructional methods. To introduce / illustrate and confirm topics. 	Immerse cadets in a specific environment.	 May be difficult to control. Needs much organization and preparation. May have cost involved.
GAME Games are used with one or more participants to practice skills, apply strategies and enhance teams. It is critical that the game supports learning through the provision of a challenging activity that allows for the skill practice or knowledge confirmation. Games are a fun and interesting way to introduce a topic, expand cadets' understanding knowledge of topic or review material.	 Practical situations. Discovery of concepts and principles. Review and confirmation. Games include rules and assessment. 	 Fun, interesting. Creates ownership. Highly participative. Many resources involved. 	 May stratify the group by creating a winner and a loser. May be difficult to providing instructor feedback.
GROUP DISCUSSION Cadets discuss issues, share knowledge, opinions and feelings about a topic in small groups to a specific goal. The instructor's questioning is flexible and minimal, and aims at encouraging cadets to	 To develop imaginative solutions to problems. To stimulate thinking and interest and to secure cadet participation. To emphasize main teaching points. To supplement lectures. 	Increases cadet interest. Increases cadet acceptance and commitment. explore their own experiences and opinions through peer interaction.	 To determine how well cadets understand the concepts and principles. To prepare cadets for application of theory or procedure. To summarize, clarify points or review. To prepare cadets for instruction that will follow. To determine cadet progress and effectiveness of prior instruction. 	 3. Utilizes cadet knowledge and experience. 4. Results in more permanent learning because of the high degree of cadet participation / cognitive involvement. 	
IN-CLASS ACTIVITY In-class activities encompass a wide variety of activity-based learning opportunities that can be used to reinforce instructional topics or to introduce cadets to new experiences. In-class activities should provoke thought and stimulate interest among cadets, while maintaining relevance to the performance objectives. Examples of these activities include learning stations, videos, brainstorming / debating.	 To reinforce instructional topics. To orient cadets to the subject. To introduce a subject. To give direction on procedures. To present basic material. To introduce a demonstration, discussion or performance. To illustrate the application of rules, principles or concepts. To review, clarify, empathize or summarize. 	 To provoke thought and stimulate interest among cadets, while maintaining relevance to the performance objectives. Permits flexibility with class size. Requires less rigid space requirements. Permits adaptability. Permits versatility. Permits better control over content and sequence. 	 Encourages cadet passiveness. Difficult to gauge cadet reaction. Takes time to prepare.
INTERACTIVE LECTURE The instructor-driven methodology combines both lecture and interaction to meet lesson objectives. Lecture portions of the lesson are offset with relevant activities such as videos with discussion, games to confirm and completion of handouts.	 To orient cadets to the subject. To introduce a subject. To give instruction on procedures. To present basic material. To illustrate the application of rules, principles or concepts. To review, clarify, empathize or summarize. 	 Saves time. Permits flexibility of class size. Requires less rigid space requirements. Permits adaptability. Permits versatility. Permits better control over content and sequence. 	 Involves one-way communication. Poses problems in skill teaching. Encourages passive behaviour. Difficult to gauge cadet reaction. Requires highly skilled instructors. Requires a high level of concentration from the cadets.

METHOD(S)	APPLICATIONS	ADVANTAGES	DISADVANTAGES
LECTURE This is a formal or semi-formal discourse in which the instructor presents a series of events, facts, principles, explores a problem or explains relationships.	 To orient cadets to the subject. To introduce a subject. To give instruction on procedures. To present basic material. To illustrate the application of rules, principles or concepts. To review, clarify, empathize or 	 Proficient oral skills are required. Useful for big groups. Saves time because of fewer interruptions. 	 Should have a clear introduction and conclusion. Cadets may be passive and uninvolved.
PRACTICAL ACTIVITY Practical activities encompass a wide variety of activity-based learning opportunities that can be used to reinforce and practice instructional topics or to introduce cadets to new experiences. Practical activities should stimulate interest among cadets and encourage their participation, while maintaining relevance to the performance objectives.	summarize. 1. Review. 2. In practical situations such as leadership development, parade appointments, etc. 3. To introduce a subject.	 Encourage participation by cadets. Stimulate interest in the subject. Maintain relevance to the performance objectives. Fun and interesting. Creates ownership. Highly participative in small groups. Many resources involved. 	 Extensive supervision is required to ensure proper content is covered. Takes time to prepare. Not suitable for large groups.
PROBLEM-BASED LEARNING Cadets analyse a problem, apply the steps in the problem solving method and work toward solving the problem in small groups. Problem-based learning requires cadets to participate and interact with each other while developing critical thinking skills. Instructors choose problem that stimulate thought, reinforce learning and relate to the cadets' interest and needs. Throughout the exercise, instructors pose thought-provoking questions and guide cadets without influencing their decisions.	Review. In practical situations such as leadership development, parade appointments, etc.	 Encourage participation by cadets. Stimulate interest in the subject. Maintain relevance to the performance objectives. Many resources involved. 	 Critical thinking skills are required. Broad knowledge of the subject matter is required.

METHOD(S)	APPLICATIONS	ADVANTAGES	DISADVANTAGES
ROLE PLAY Cadets are assigned roles requiring them to interact with others in responding to various realistic situations. The instructor identifies the purpose of the role-play, provides the cadets with enough background information to help them accurately play their assigned role, and motivates them to become more fully involved in the activity. De-brief after the role-play is essential to connect the activity with the PO / EO.	Skills associated with social systems or human interactions; practical situations eg. Positive Social Relations for Youth, discipline issues, behaviour on the range, leadership, instructional techniques. Attitudinal objectives.	 High participation, interactive delivery and may lead to discussions. Experience is developed in a supportive environment. Can be very versatile depending on application eg, introduce a topic, midstage learning or as confirmation. 	 Participants can be easily sidetracked, need for good preparation and controls must be set appropriately. Competence, experience and prepared instructors required.
